THE DUDLY TOOL CO., Menominee, Mich., U. S. A.

"Newell" Chain Pipe Wrench

The Dudley Tool Co., Menominee, Mich., are offering the trade the "Newell" Chain Pipe Wrench, illustrated. It is made of drop forged steel; the handle and nut rest, or boxing is in one piece, and all parts are made in duplicate. The tool has four points of bearing on the pipe. The toe is smooth and heel fluted, giving a perfect ratchet motion. As the Wrench can be locked very securely on any upright object and cannot be moved in the

"NEWELL" CHAIN PIPE WRENCH.

least, many users employ the tool as a staging on upright pipe. Other users of the Wrench frequently lock the Wrench on a pipe, and using a ladder as the other upright, across which supports is placed a plank; this combination is used as a working foundation. This Wrench can also be used as a vise for cutting and rethreading pipe. The Wrench can be adjusted, if desired, by means of a rotary nut upon a non-rotary bolt, enabling the operator to secure a perfect adjustment, thus eliminating lost motion and allowing the operator to work to advantage in confined places.
